Organizational Overview

SOS Outreach, founded and headquartered in Colorado's Vail Valley, is a national youth development nonprofit. The overarching goal of the SOS Outreach program is to encourage positive character and leadership development through group mentoring, core values, outdoor activities (primarily skiing and snowboarding), and community service. SOS program participation prevents harmful behaviors by enhancing resilience through fostering self-efficacy and building social and emotional skills (SEL). Within an out-of-school time setting that mirrors the school year, SOS uses a youth-centered approach to programming that emphasizes explicit learning through social interaction and relationships that take place in the context of active, outdoor, and experiential learning projects and activities. SOS makes specific connections with youth to mentors, peers, community leaders, and other caring adults to facilitate regular communication, understanding, and empathy. These relationships along with intentional program activities such as goal and group norm setting create conducive environments for learning.
